

fleimio trolley

Fleimio Trolley is a versatile furniture. It may become a modern design classic. Designed by Mr Tero Jakku (MA) from Finland.

Material of the Trolley is Finnish birch plywood. The Trolleys are made locally by a Finnish carpenter and they will be delivered fully assembled ready for use.

NORDIC LIFESTYLE

Firewood logs are natural interior design elements in Nordic homes, where firewood is used for warming the home during autumn and winter. The original idea behind the Fleimio Trolley was to create a furniture for firewood logs: an elegant frame for the logs, that are natural part of the nordic lifestyle. Today, the users of the Trolley have invented new ways to use the Trolley.

DESIGN

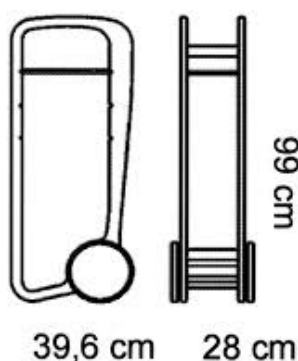

The Trolley design is organic, minimalistic and Nordic. The two wheels are distinctive marks of the product. The Trolley contains two shelves that can be used for storing important items for one's own interior design.

Functionally it is easy to use: one can position it horizontally or vertically. The Fleimio Trolley has an ergonomic handle: one is able to hold the Trolley in an ergonomic height just holding the Trolley in correct angle when driving. Technology is hidden inside the Trolley.

MATERIAL, DIMENSIONS AND QUALITY

Fleimio Trolley is hand made by Finnish carpenters. Material is painted birch plywood. The surface is lacquered.

Fleimio Trolley's dimensions are:
height 99 cm
width 39,6 cm
depth 28 cm
Fleimio Trolley weight is 6 kg.

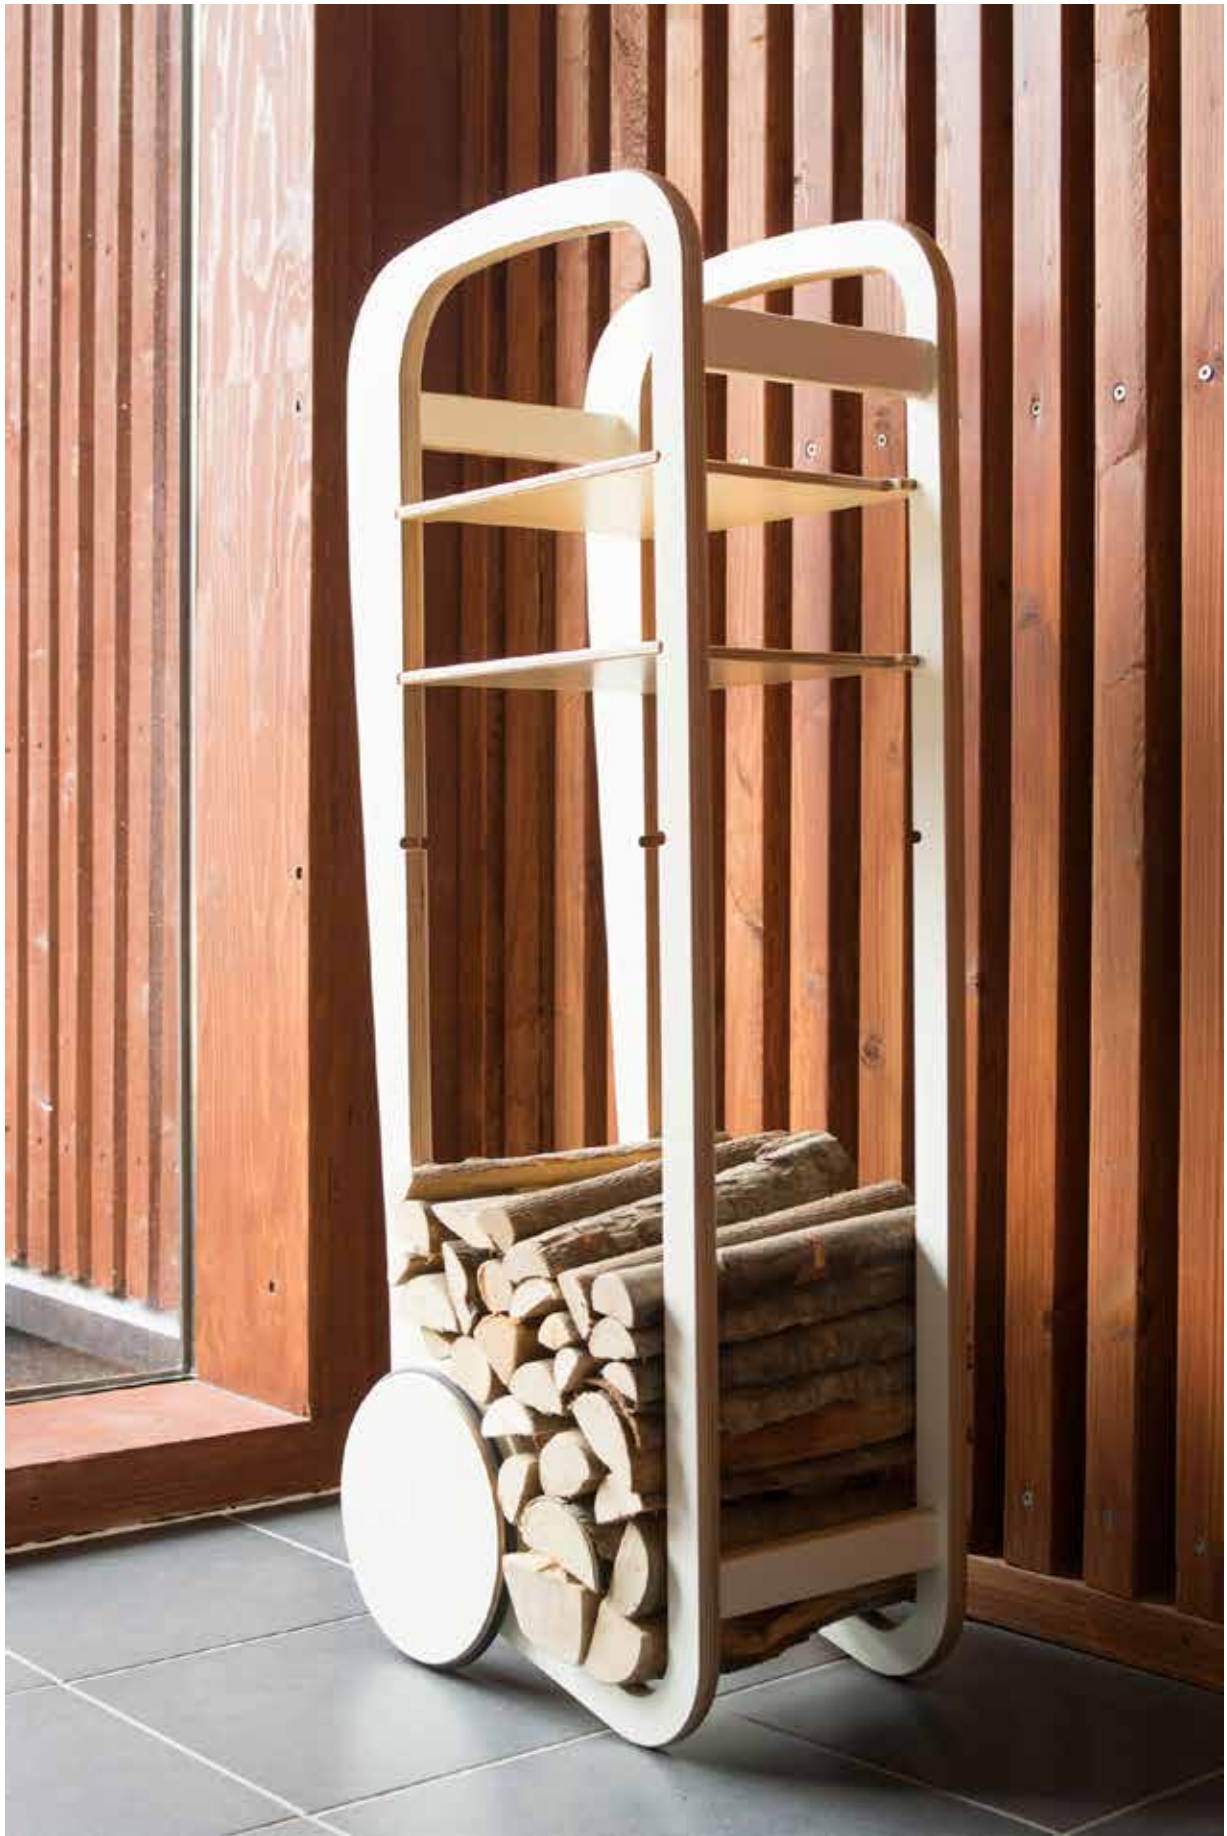

The Fleimio Trolley is available in four regular colours: white, grey, red and black.

VERSATILE FURNITURE

One can use the product so that it serves the best way one's own interior design. Here you can find some ideas how you could use the Trolley.
